A Catalogue of

Preserved in the

Calligraphy Room

A VIEW OF OUR WORKS

THIS catalogue is devoted to Artistic and Decorative Designs of Perforated Metal which have been introduced to meet a growing demand for Art Metal Work of the kind illustrated on the following pages.

The patterns are original, the workmanship is of a high standard, the materials of the best, and these qualities in combination result in the production of high grade metalwork possessing Architectural beauty.

We welcome enquiries and shall be pleased to prepare drawings and submit quotations according to your requirements.

RADIATOR GUARDS, PIPE GUARDS, GRILLES, VENTILATOR PANELS, AND ORNAMENTAL METALWORK

THE Cover of this catalogue bears a full-size reproduction of brass perforating and embossing, and the following pages contain other examples of the type of work we undertake.

We have only reproduced a selection from our 3000 different patterns in order to illustrate the quality of the workmanship. Every illustration is reproduced from an actual photograph, and in one or two instances two photographs have been mounted together in order to shew a finished article and a full-size piece of the pattern used.

We can supply any type of Perforated Metal for Grilles, Ventilating Panels, Radiator Guards, Bedsteads, Fenders, etc., to suit your requirements, and shall be glad to have your enquiries for any special designs.

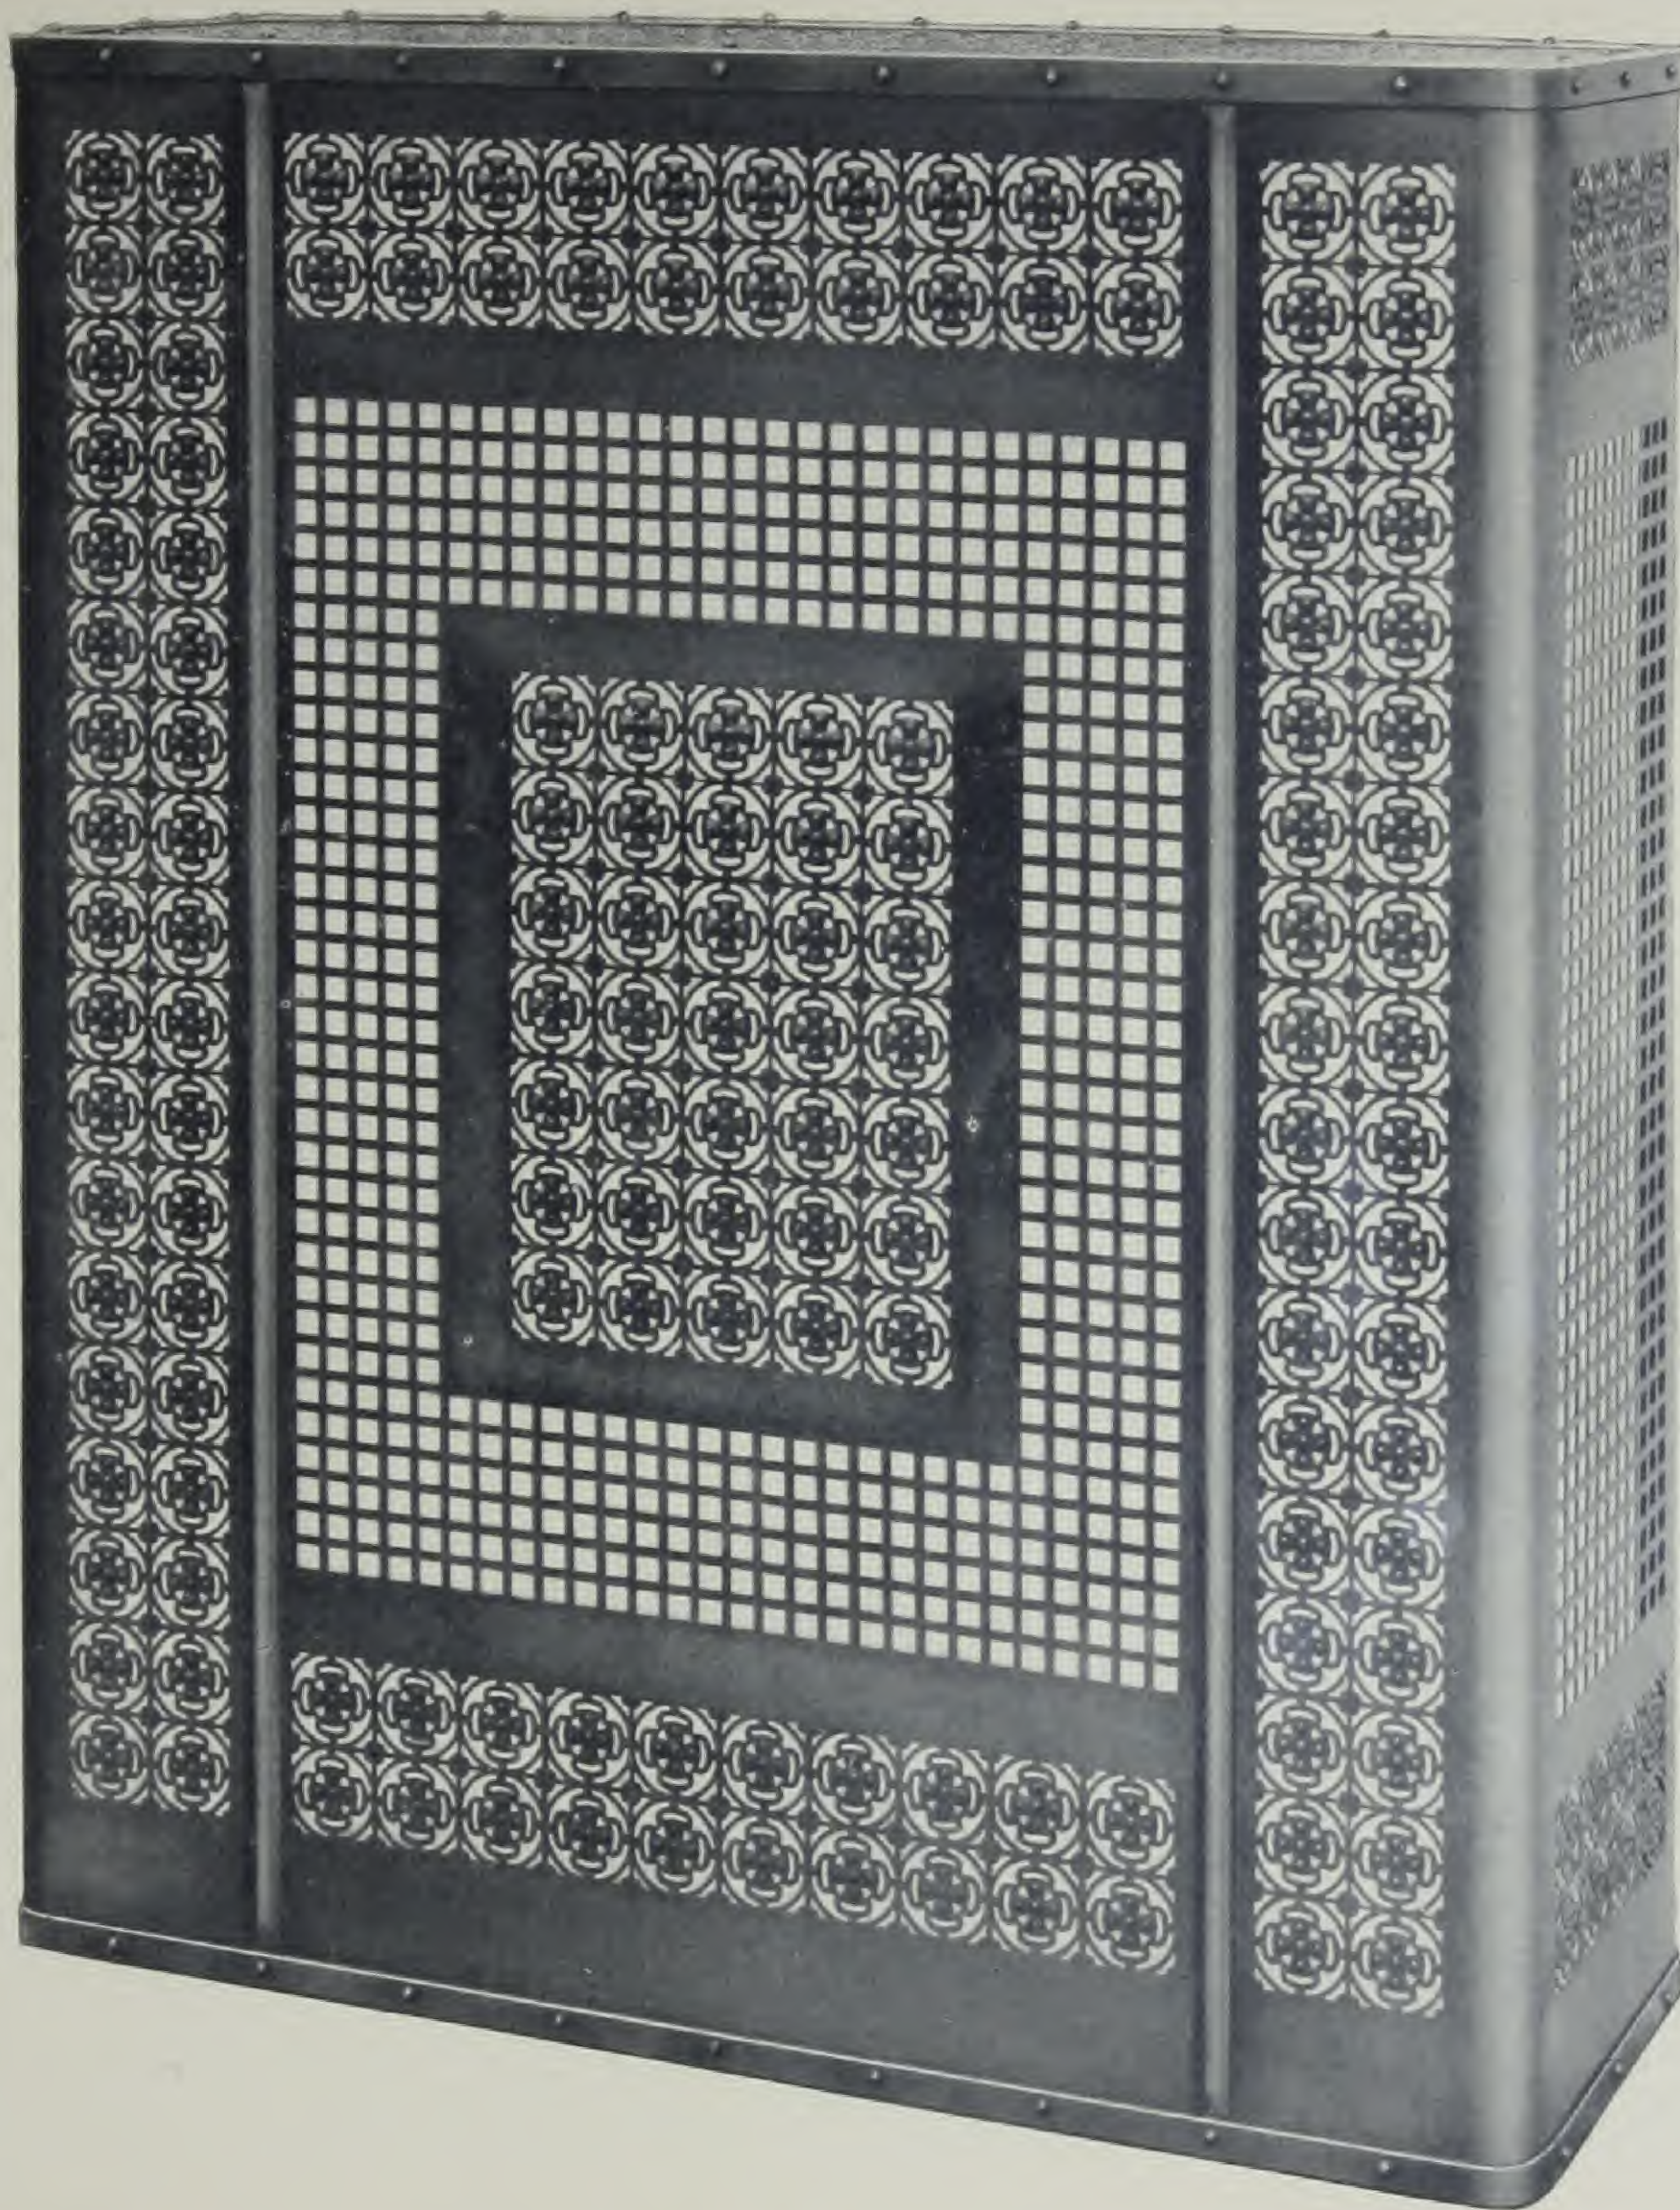

The following finishes can be produced
Polished Copper and Lacquered; Polished Brass and Lacquered; Satin Brass and Lacquered; Oxidised Copper Relieved and Lacquered (Bright or Dull); Oxidised Brass Relieved and Lacquered (Light, Medium and Dark); Copper Bronze and Lacquered (Light, Medium and Dark); Antique Brass Lacquered; Nickel Polished and Lacquered; Nickel Oxidised (Bright and Dull Relieved) Polished Silver; Antique Gold and Lacquered.

Let us have

your enquiries.

THE "ANTIQUE" RADIATOR GUARD

This radiator guard was produced in Brass. Finished antique brass and lacquered. Panels of the two designs used are illustrated full size on pages four and five. It effectively screens the radiator and offers full protection; at the same time allowing free passage for the warm air to circulate.

*Can be supplied in any finish
mentioned on the opposite page*

*Such a cover cannot but give
added tone to any interior*

Full-Size Illustration of the "ROSE" Pattern, Number 1642

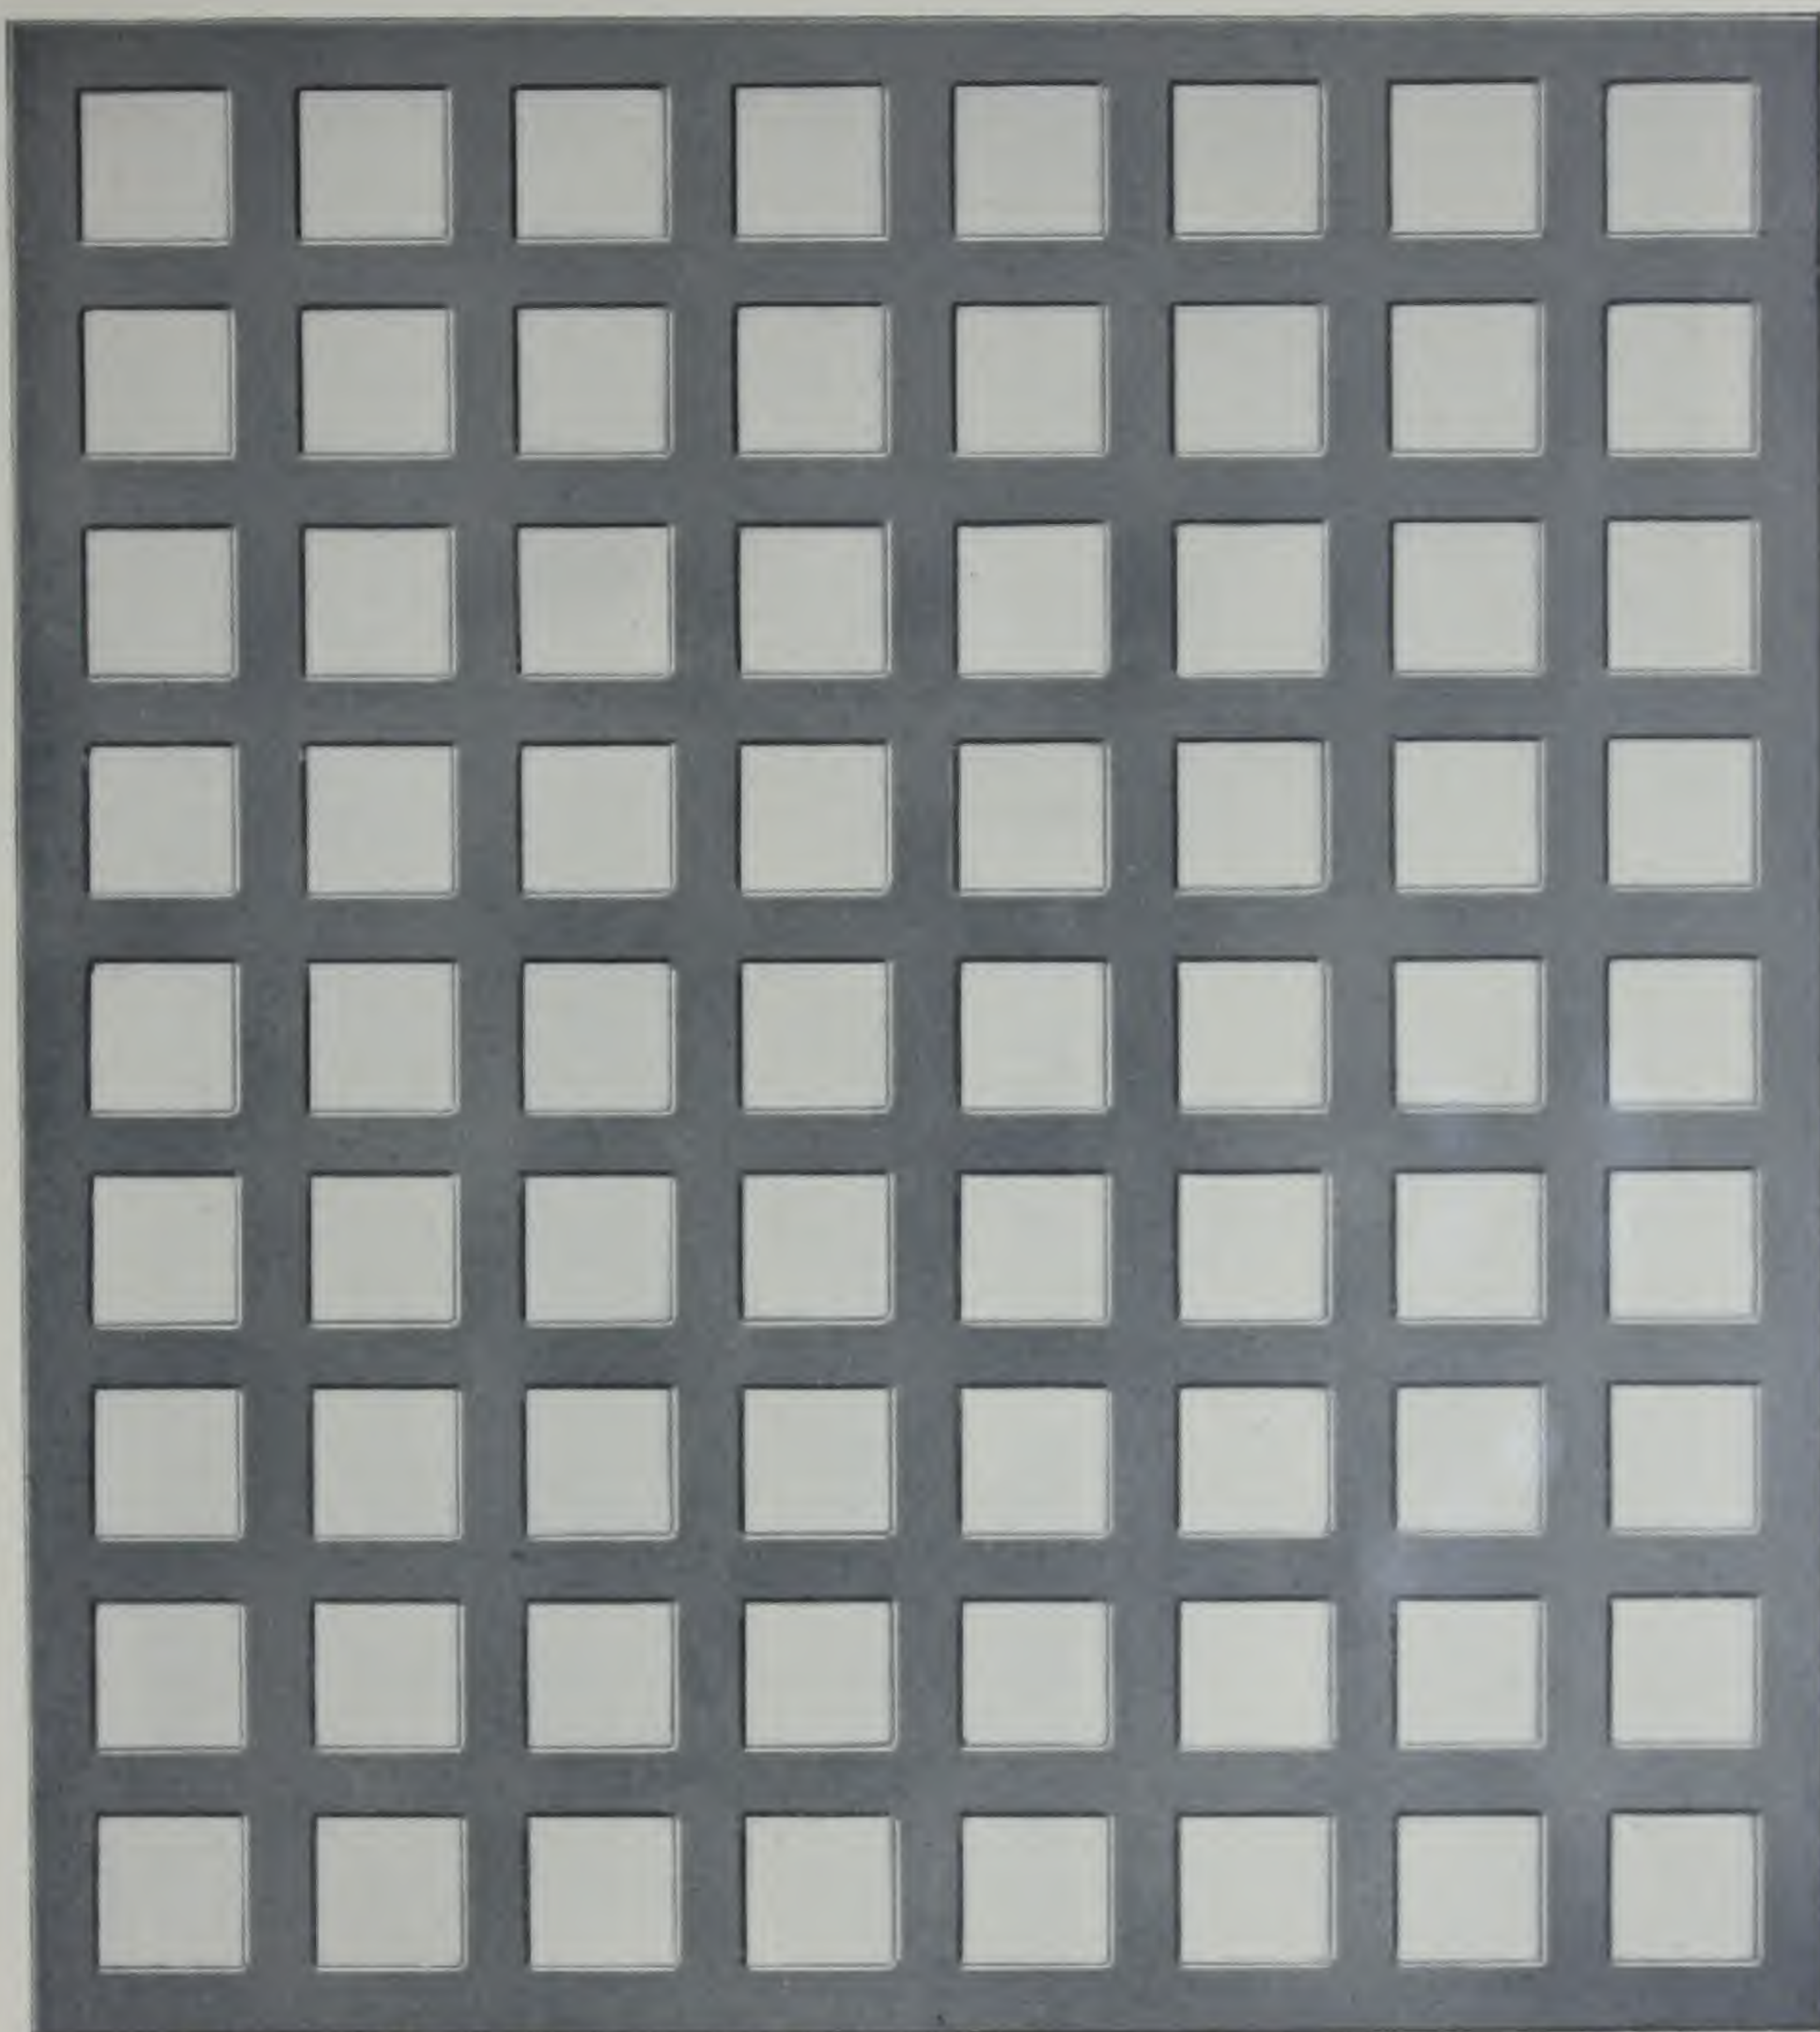

Both this and the illustration opposite are reproduced full size. It can therefore readily be seen that no obstruction is offered to the free passage of warm air, and the radiator is hidden by a screen which is decorative and, at the same time, affording ample protection.

*Used for the "Antique" and
See pages three and*

*"Windsor" Radiator Guards
ten respectively*

Full-Size Illustration of the "PLAID" Pattern, Number 1664

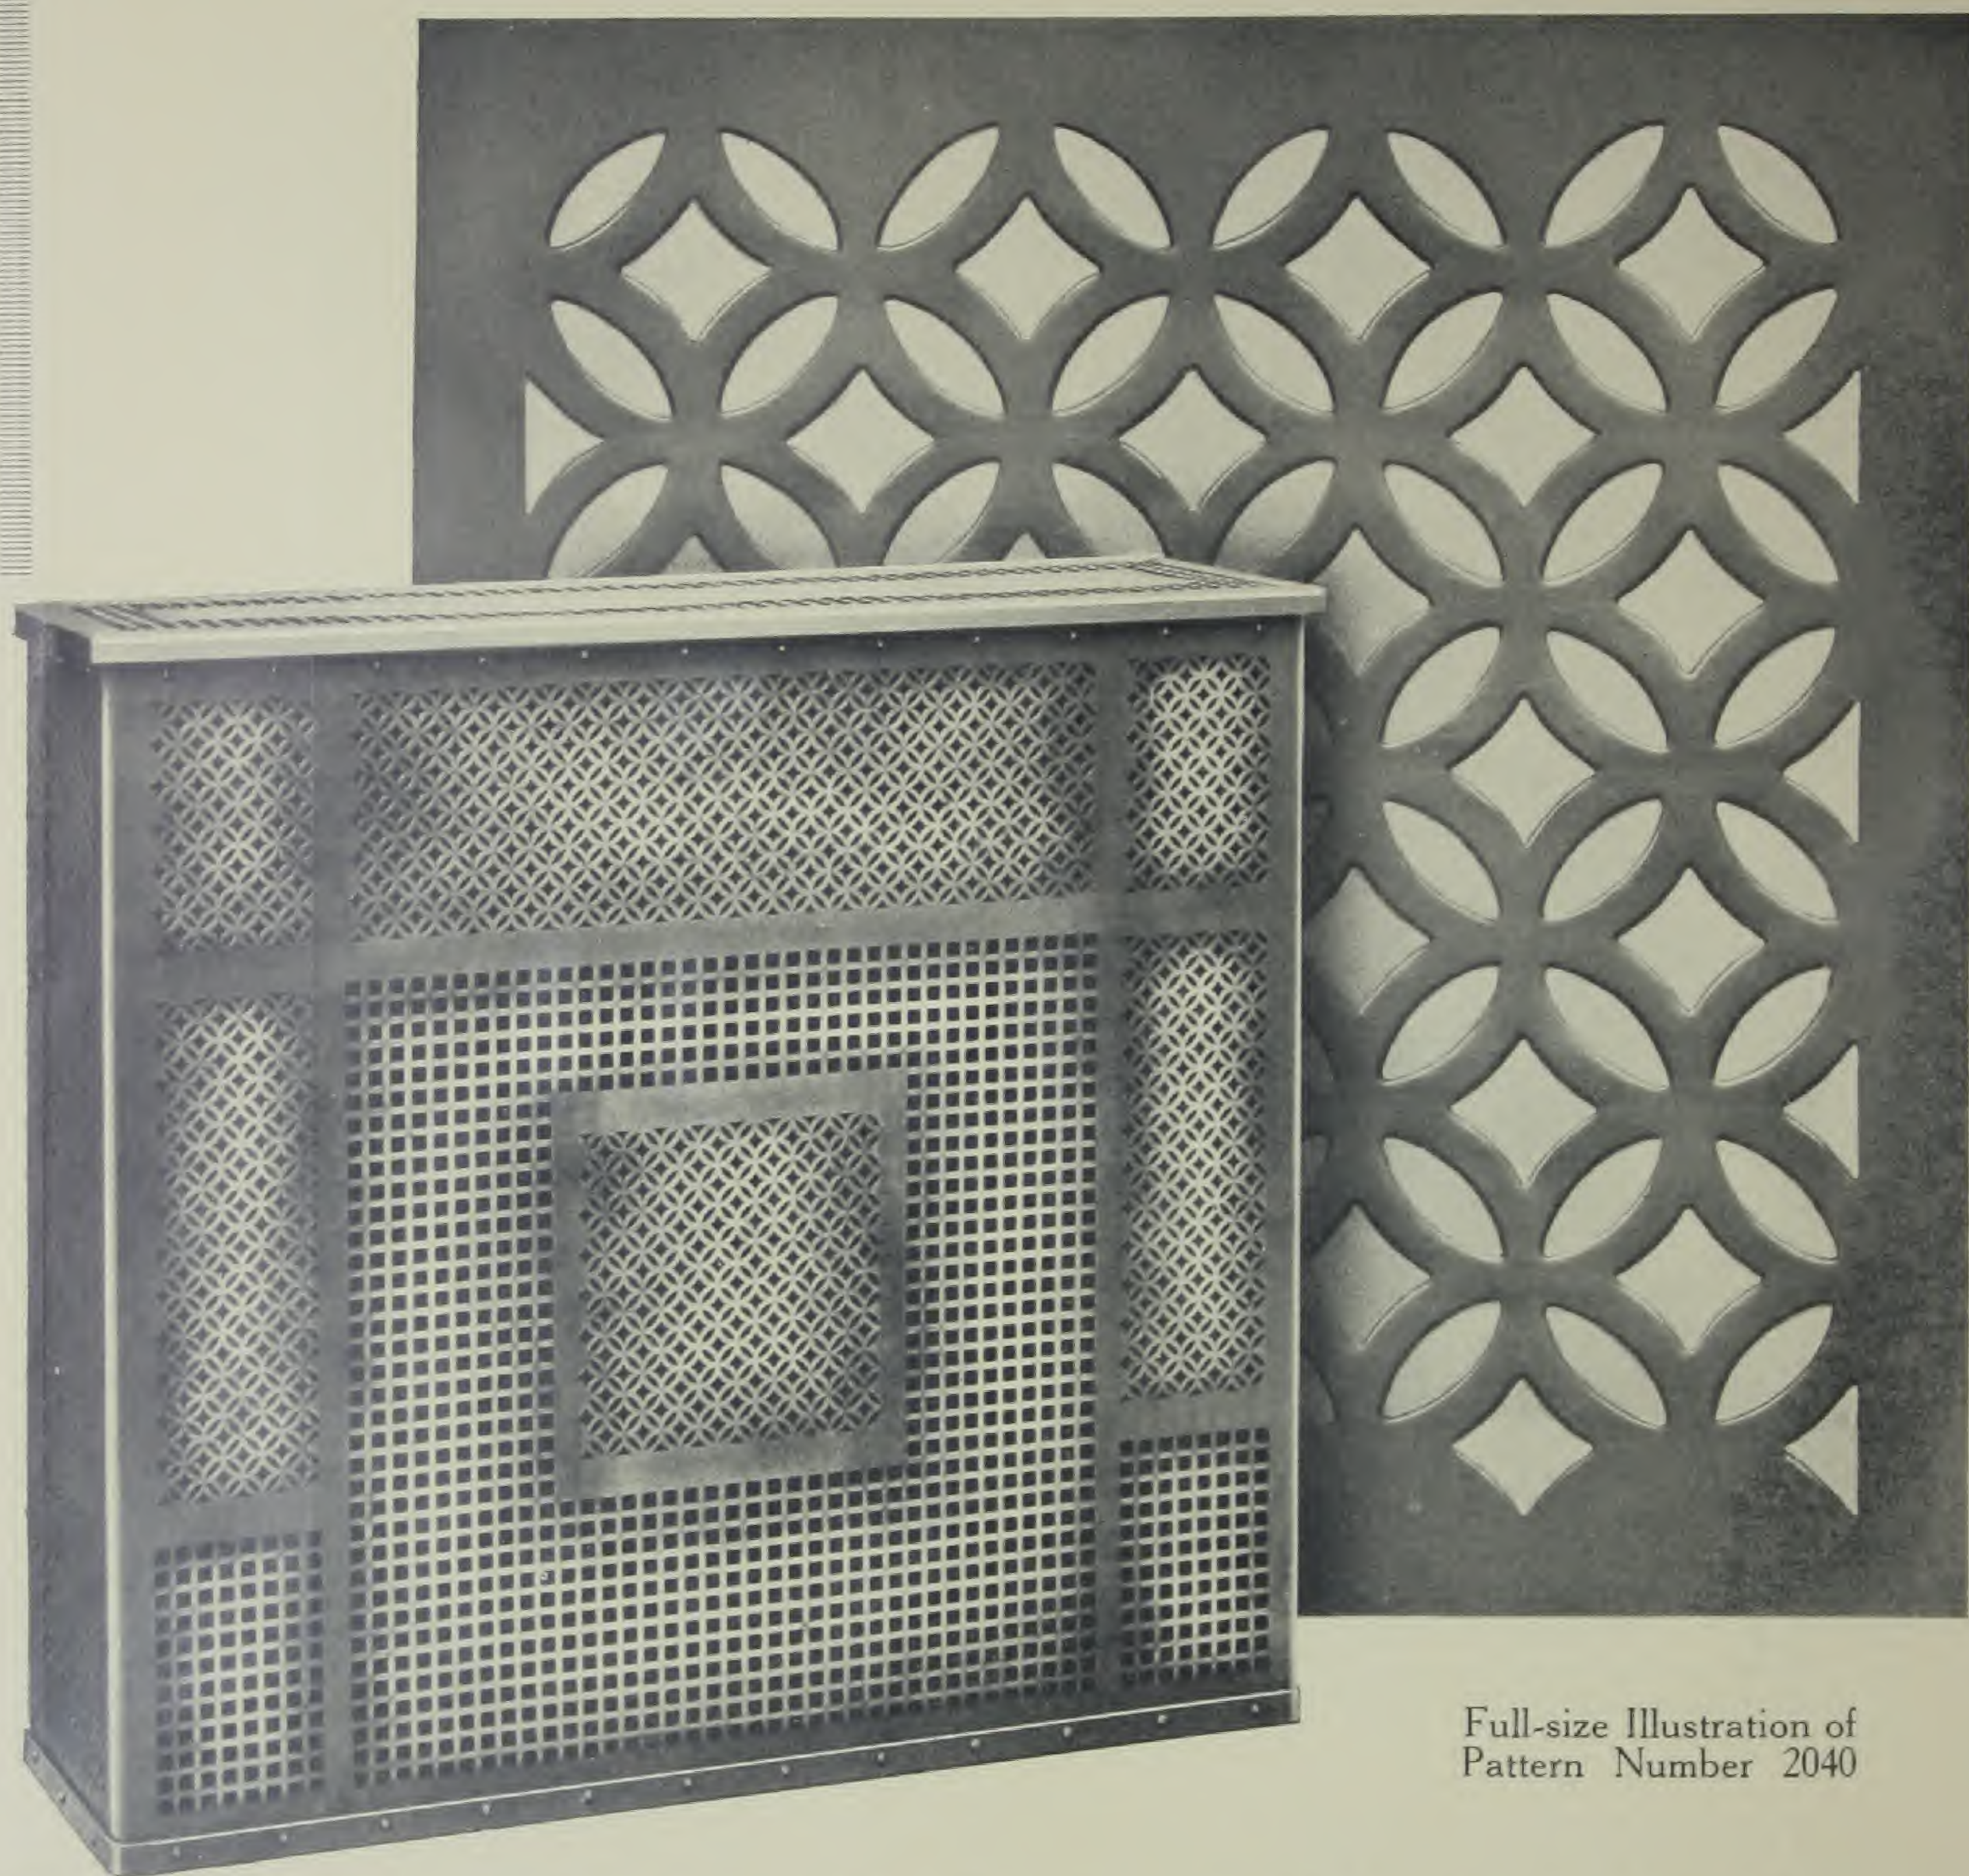

Panels can be produced to any size up to sheets measuring 8 ft. \times 4 ft. and in Brass, Copper, Mild Steel, or similar metals, and in any finish as mentioned on page two. Any two or more patterns can be used in combination, and we shall be happy to submit designs to suit the style of decoration.

*Used for the "Antique,"
See pages three, six,*

*"Tudor," and "Saxon" Guards
and eleven respectively*

THE "TUDOR" RADIATOR GUARD

Full-size Illustration of
Pattern Number 2040

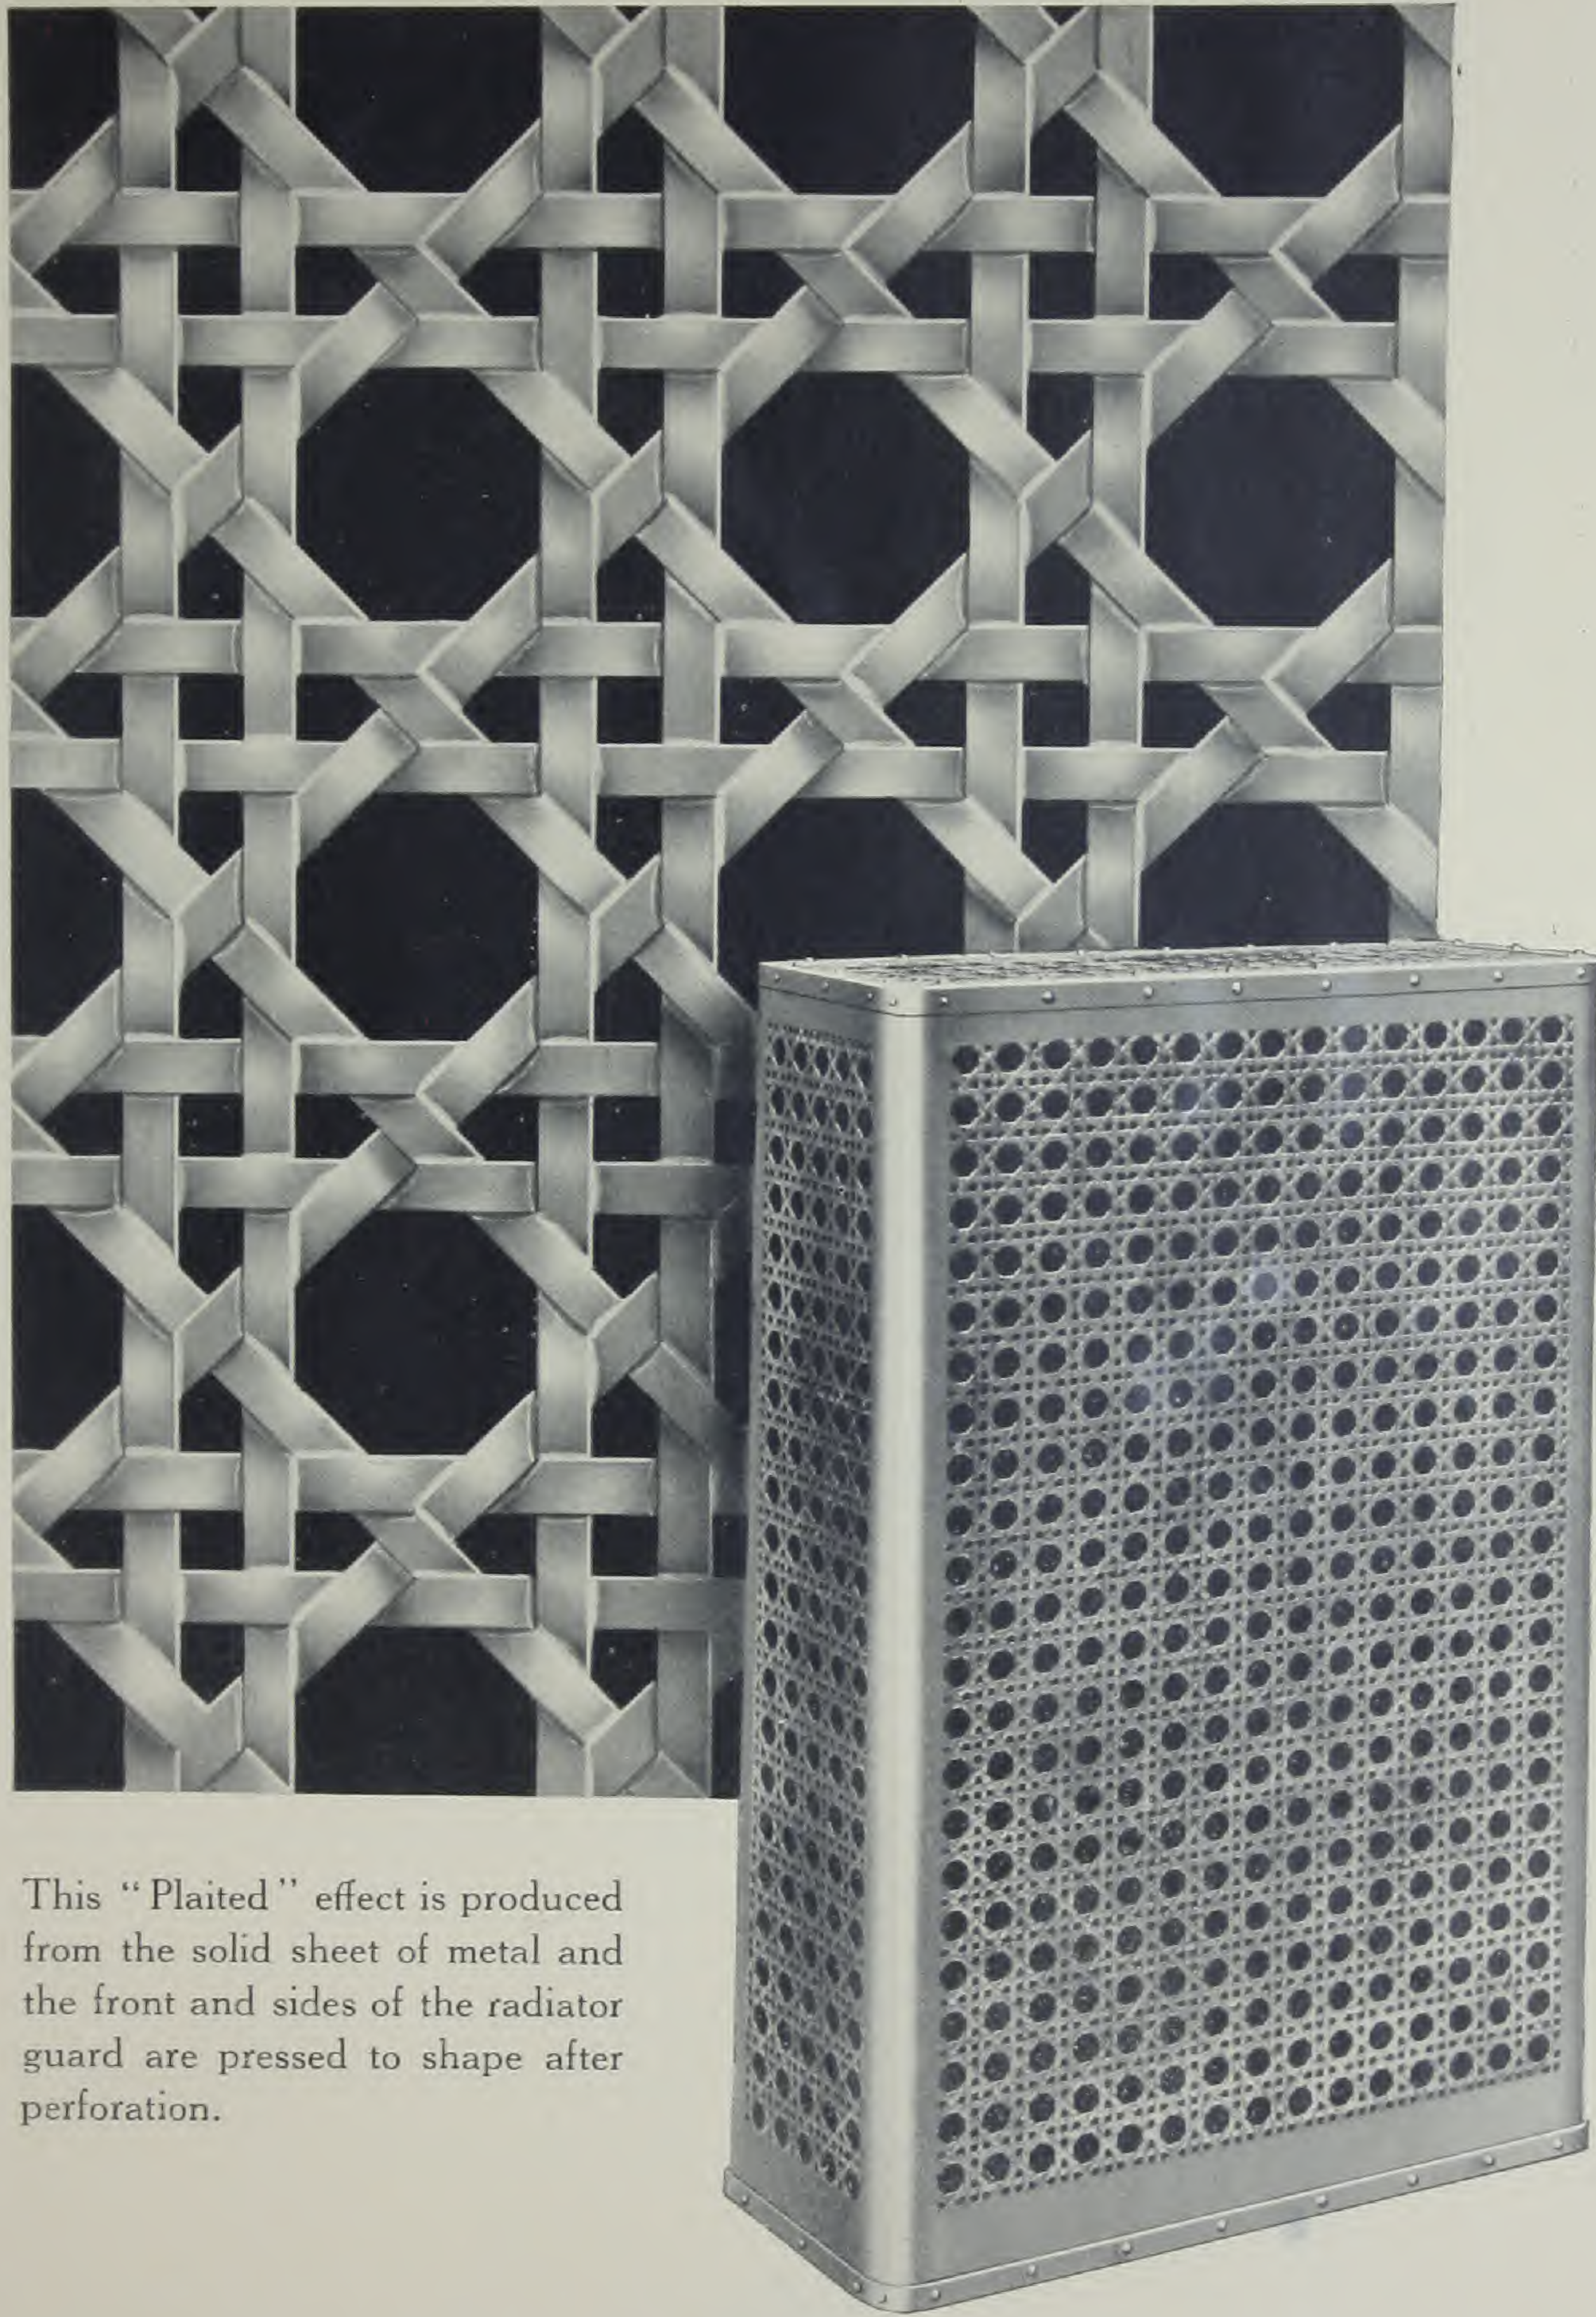

The above illustration is taken from an actual photograph of another type of radiator guard. Manufactured from steel and finished in "Oxidised Silver." No matter what shape or size is desired, we can produce it in a manner entirely worthy of the scheme of decoration. Full-size illustration of the square perforation is shewn on page five.

*The "Plaid" Pattern
See page eleven for*

*is also used here
full size illustration*

THE "ITALIAN" RADIATOR GUARD and Full-Size Illustration of "Plaited" Pattern, Number 1477

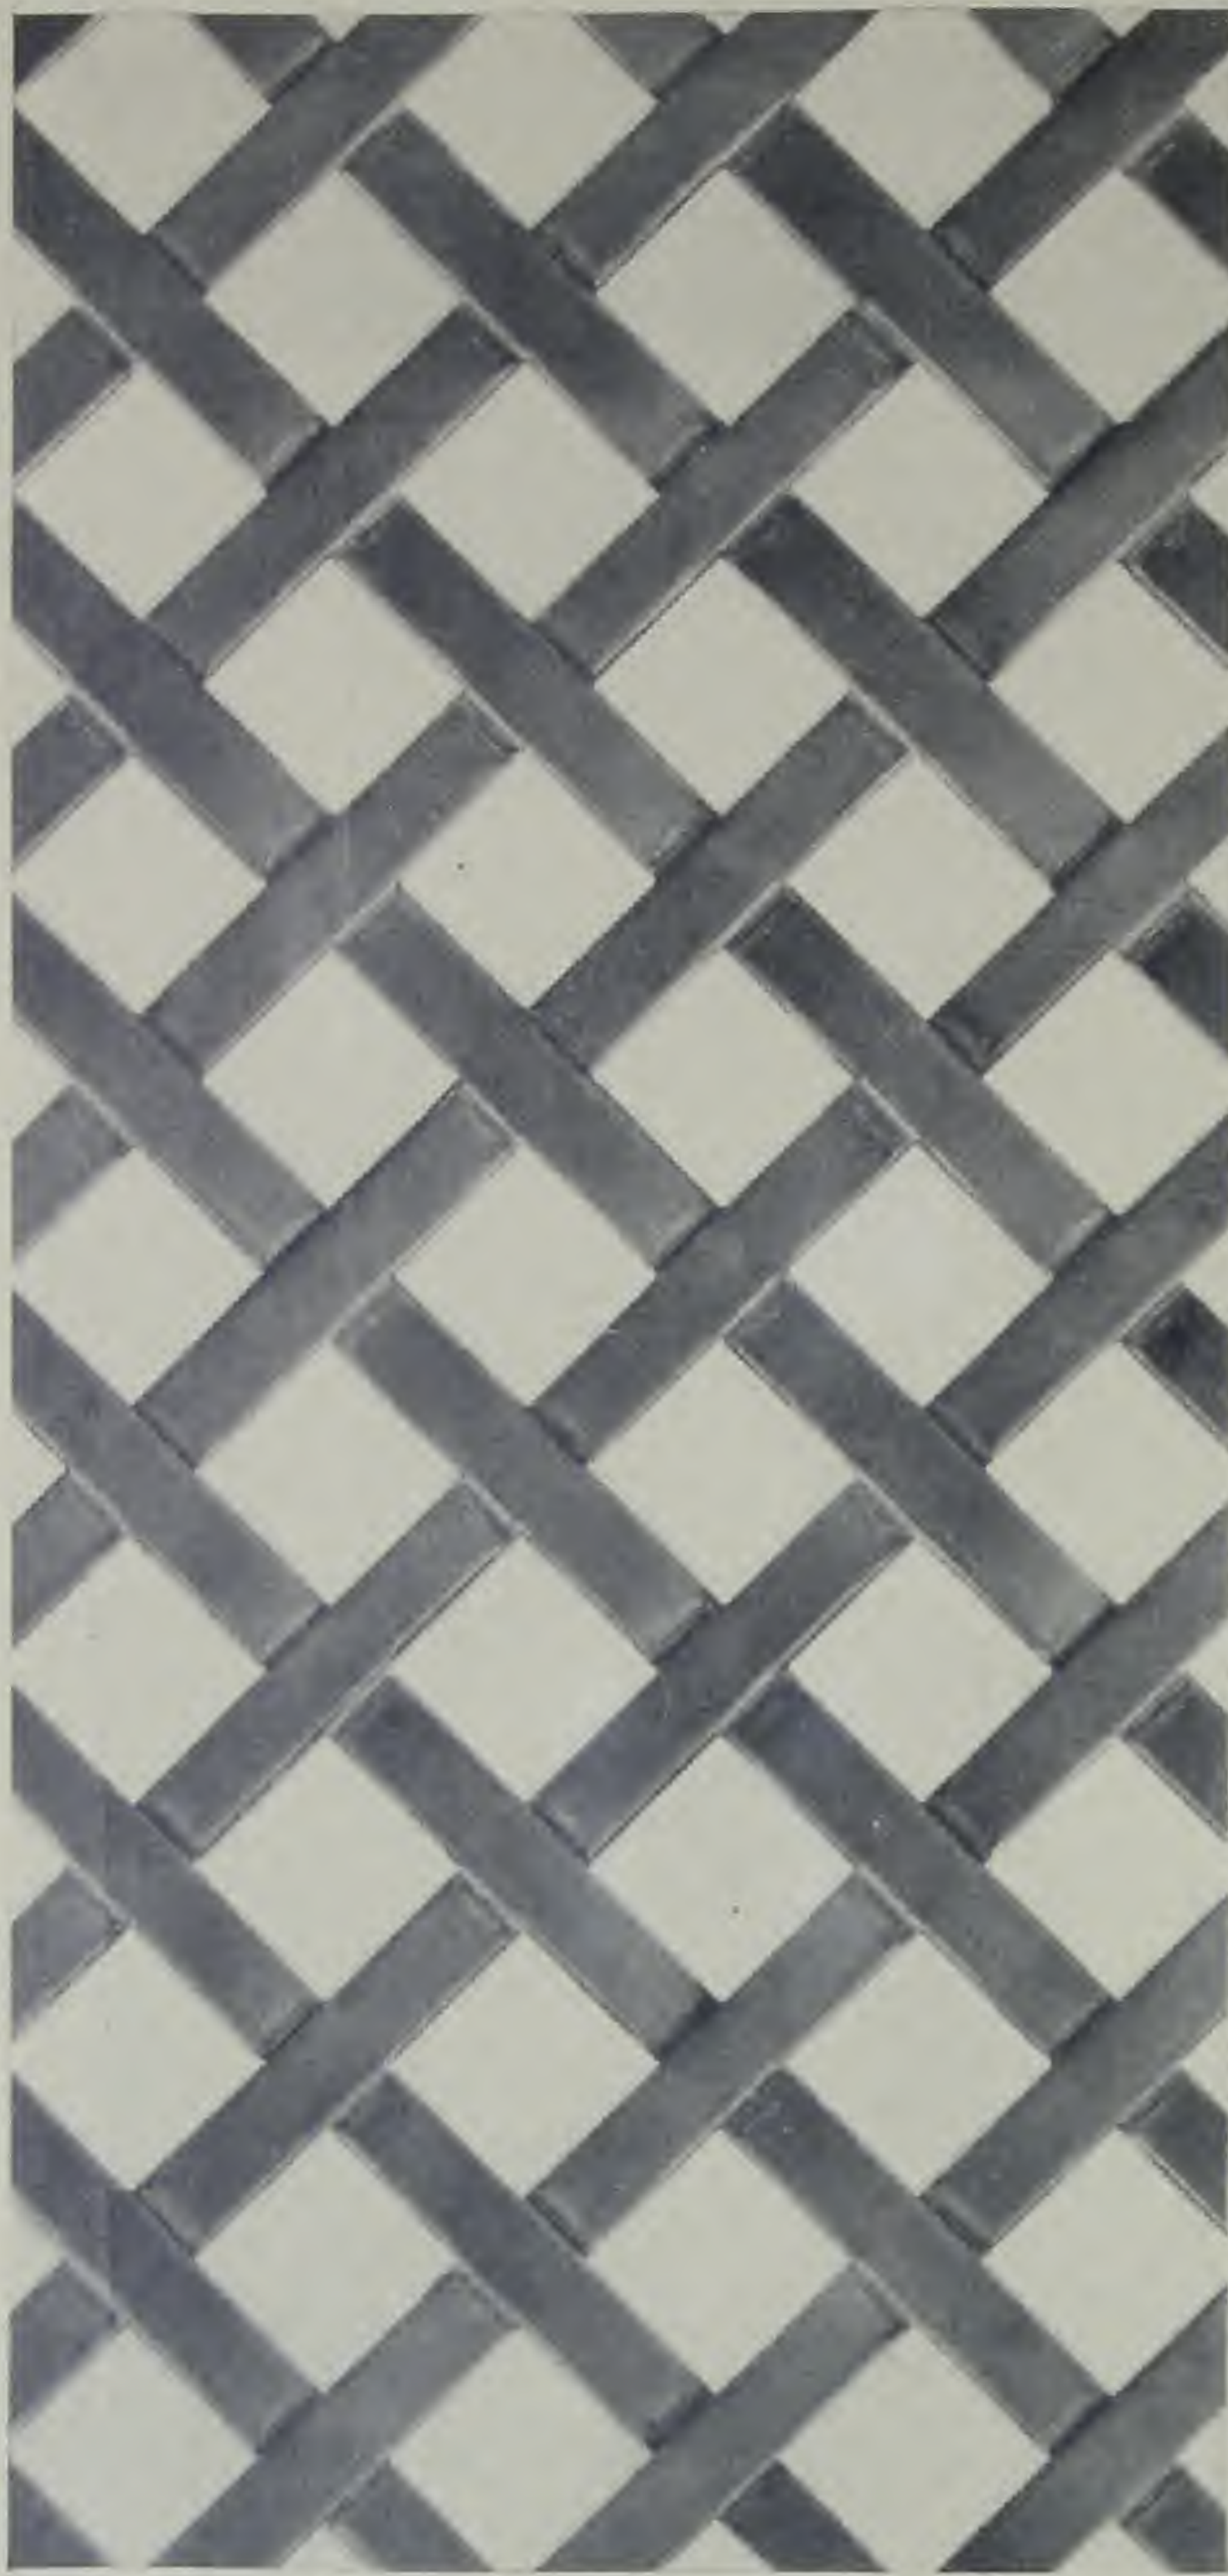

This "Plaited" effect is produced from the solid sheet of metal and the front and sides of the radiator guard are pressed to shape after perforation.

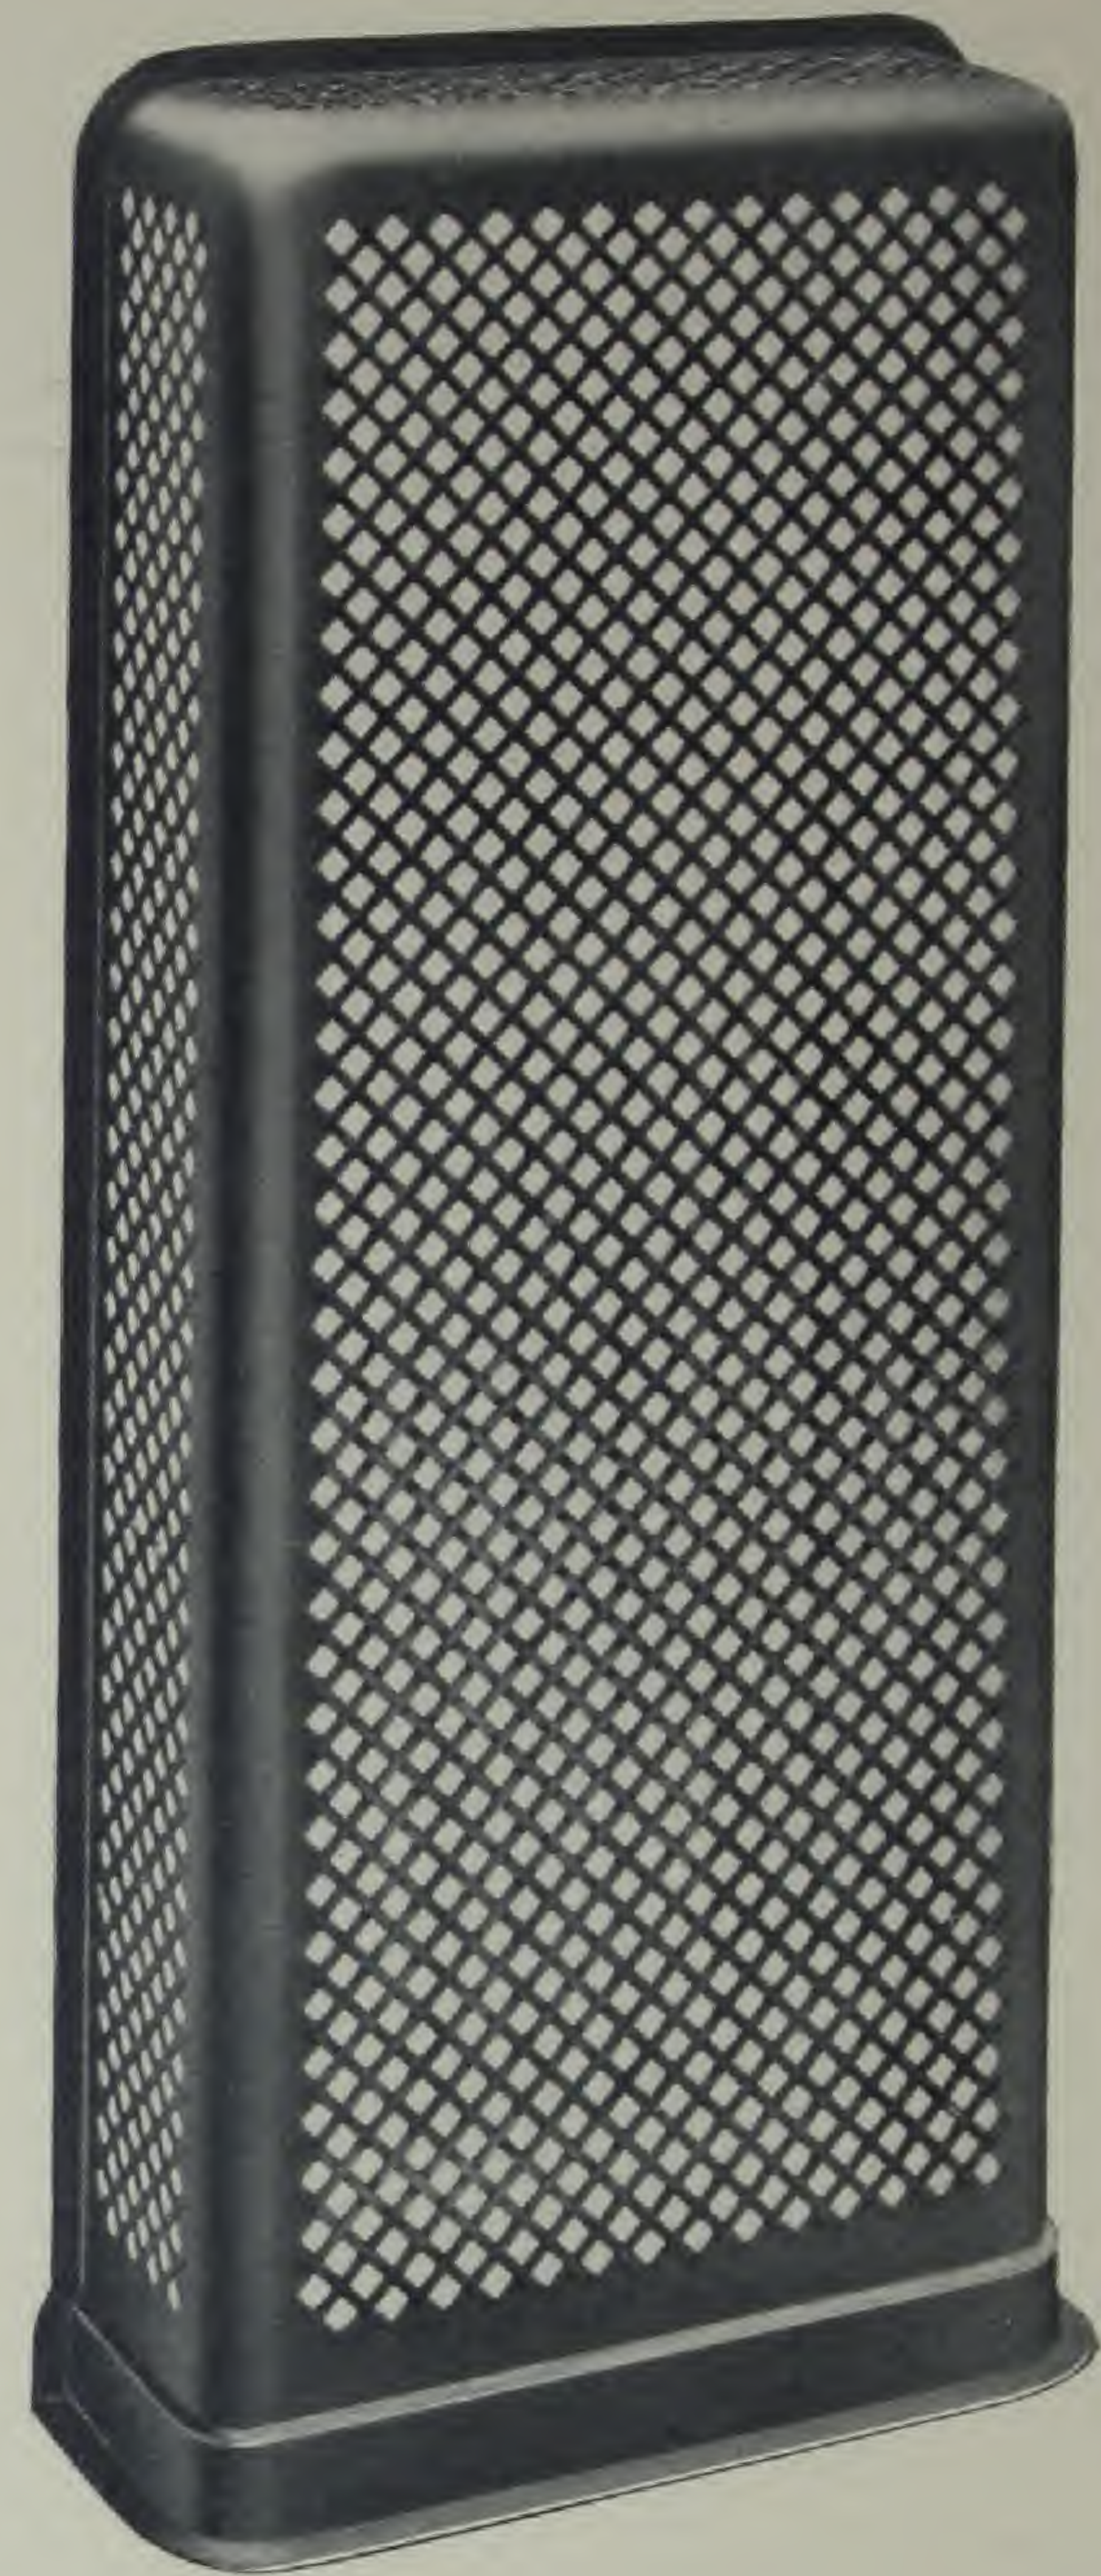

An example of

"Harvey" craftsmanship

Full-Size Illustration. Pattern No. 1861

The Diagonal "Plaited" Pattern

This illustrates the Diagonal "Plaited" effect as applied to the specially tall type of radiator guard. The photograph was taken of a guard finished in "Old Silver." Supplied to any depth, width and height to suit individual requirements, and in Bronze, Brass, Copper, etc., as mentioned on page 2. This pattern was used for the Duralumin ventilating panels of the S.S. "Aquitania."

Let us have

your enquiries

The "Diamond Plaited" Pattern

Full-Size Illustration.

Pattern No. 1476

Full-size illustration of the pattern used in the radiator on the left. It is *not* made from latticed strips, but stamped out of the solid sheet of metal. Supplied in Copper, Brass, Zinc, etc., and in any of the "Finishes" mentioned on page two, from sheets up to 8 ft. \times 4 ft. in any style of panelling.

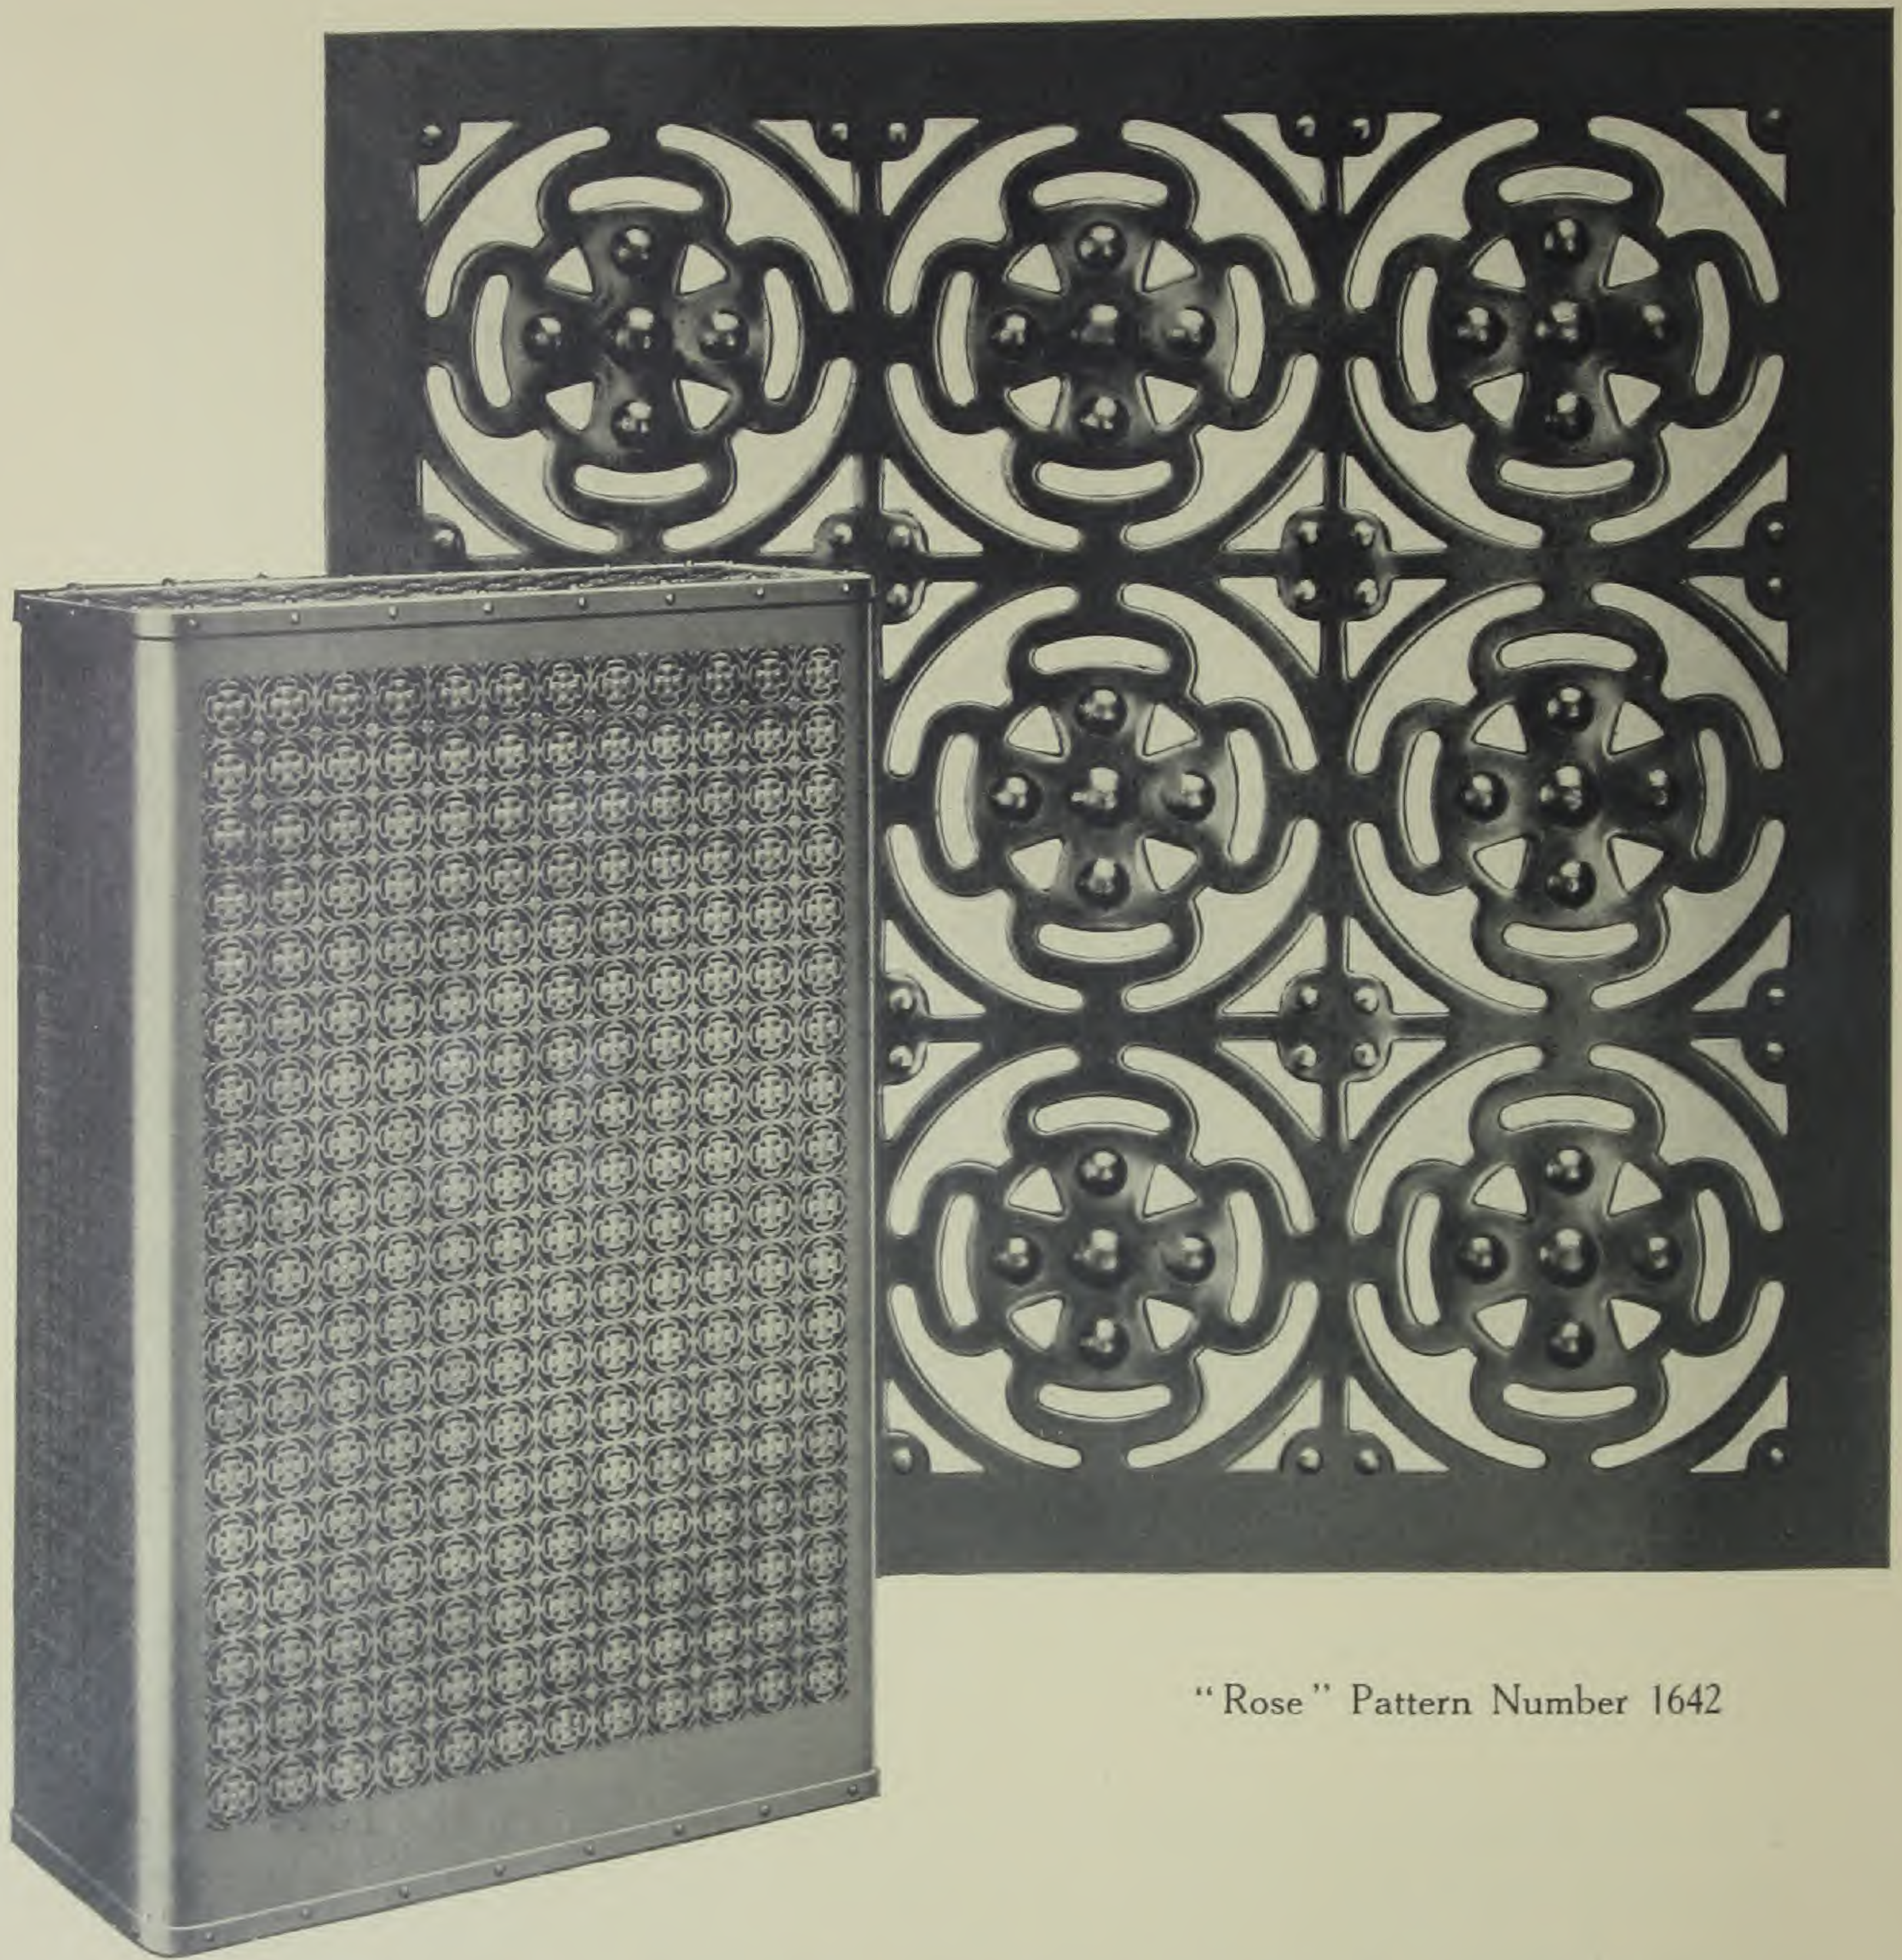

Designs can be submitted by our drawing office, or customer's own suggestions or specifications faithfully followed.

Let us have

your enquiries

THE "WINDSOR" RADIATOR GUARD

"Rose" Pattern Number 1642

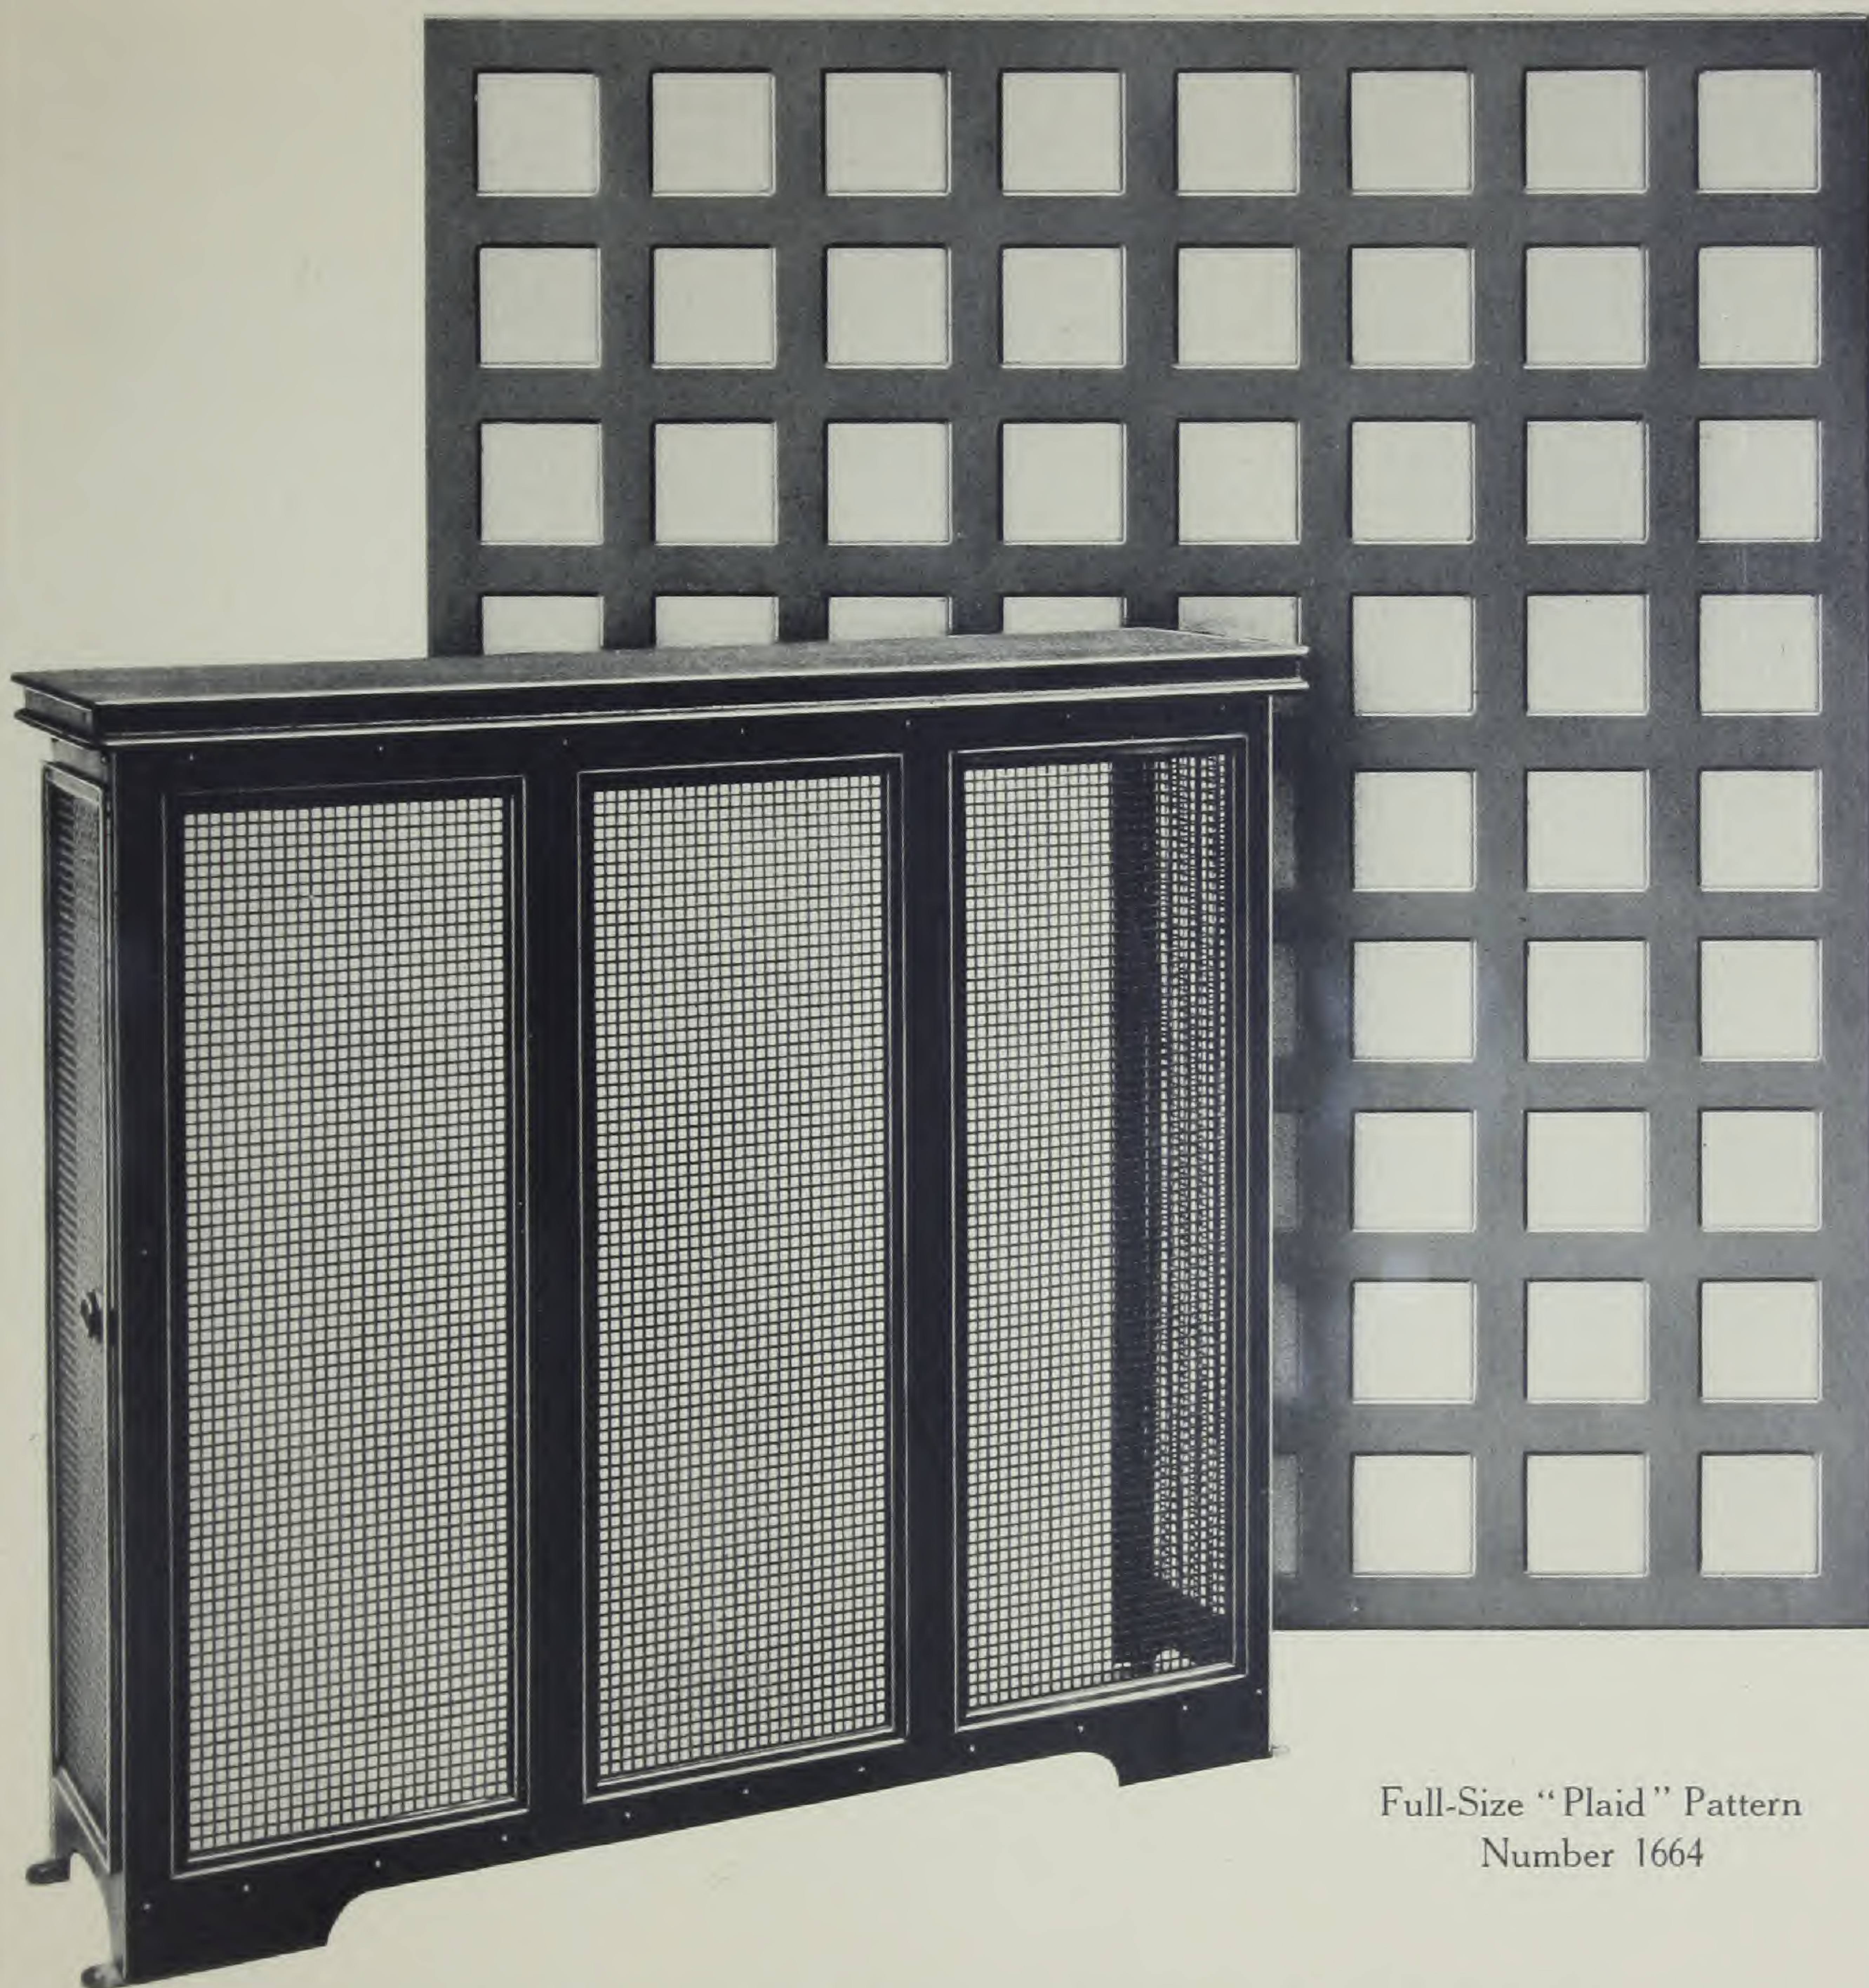

This illustrates another method of using the design which appears in the centre and side panels of the radiator cover shewn on page three. The "Rose" pattern, full-size, is again reproduced so that the excellence of the workmanship can be easily observed in conjunction with the finished article.

We supply perforated

metalwork for all purposes

THE "SAXON" RADIATOR GUARD

Full-Size "Plaid" Pattern
Number 1664

Enquiries having been received for a radiator guard which can also be utilised as a shelf for flowers, ornaments, etc., we have produced this type. Tops in Oak, Mahogany, Marble, etc., to suit special requirements, can be supplied for any design and any shape of guard.

This design also appears

on pages five and six

"HARVEY" RADIATOR PANELS

Art Screens for Radiators built into Recesses

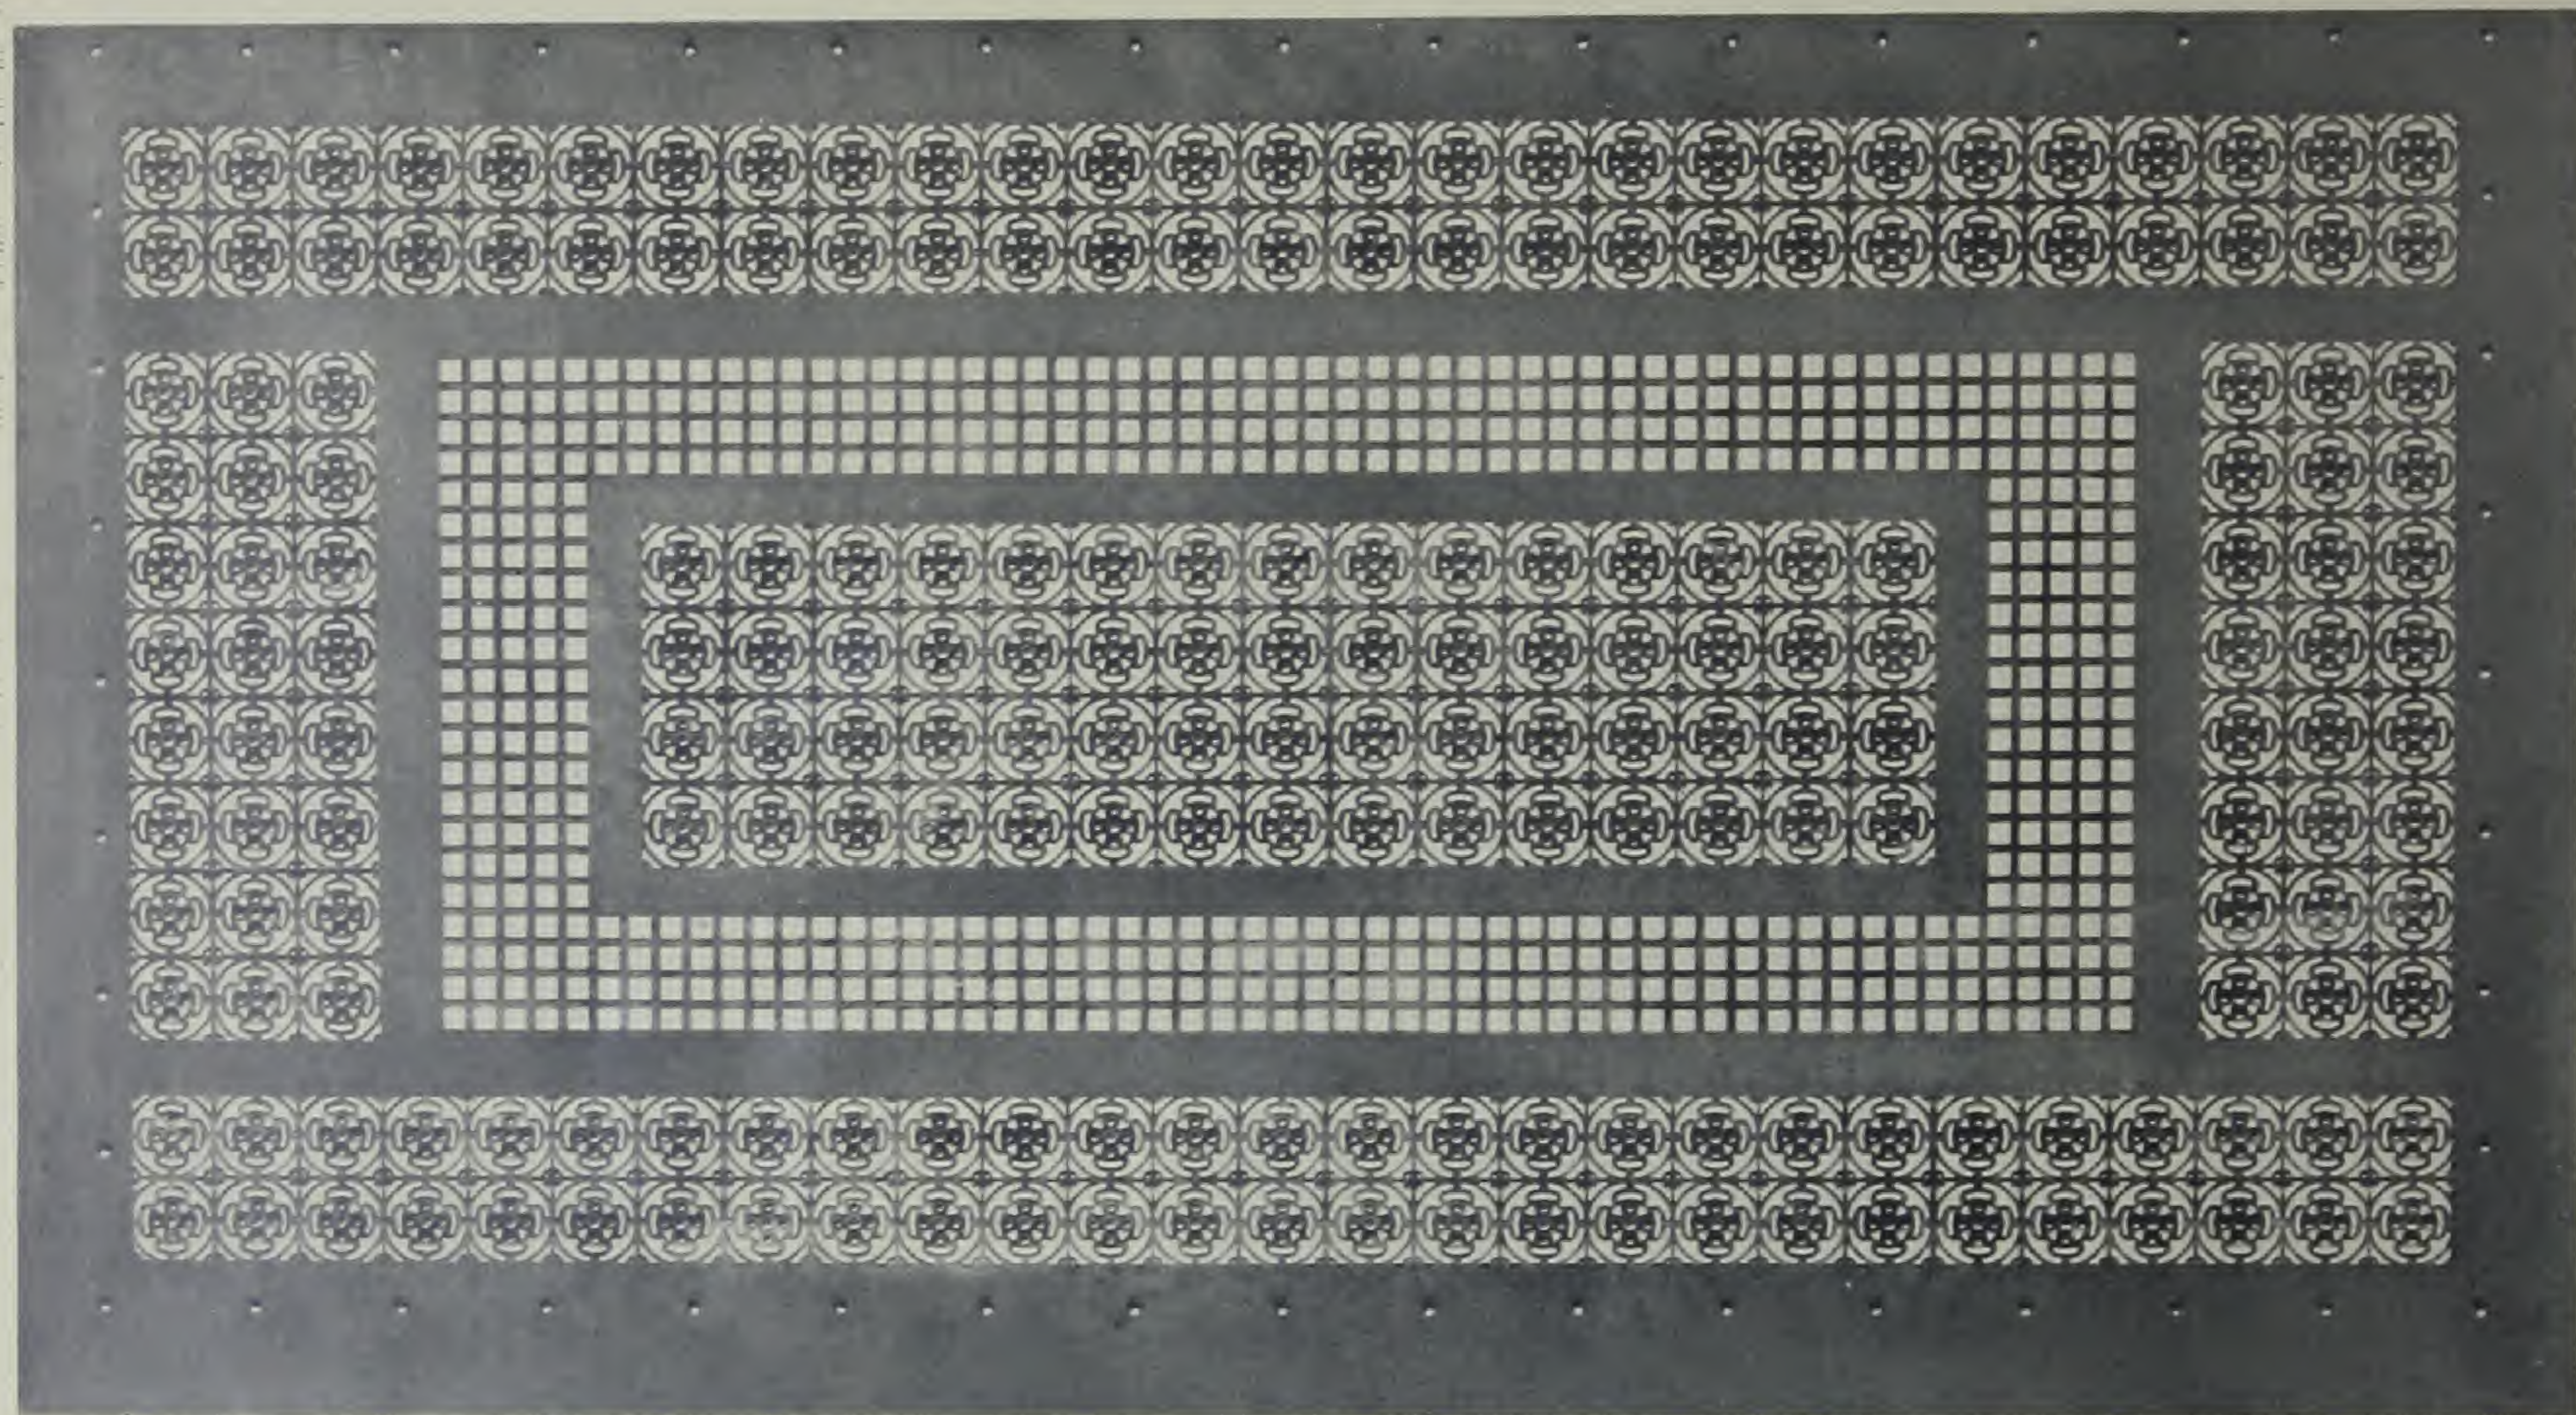

Fig. 400. A Panel 4'-4" x 2'-4 $\frac{1}{4}$ ". Created by employing Patterns Nos. 1664 and 1642

The radiator built into a recess can be screened and the place beautified by panels similar to the one illustrated above and those on page 13. These were recently produced for the Cromwellian and the Jacobean rooms of a county residence. Fig. 400 was finished Antique Dark Bronze and Lacquered; Fig. 401 in Dark Florentine Bronze and Lacquered; Fig. 402 in Satin Brass and Lacquered.

We can produce decorative metal Panels to suit any style of decoration, and for any purpose, employing either single patterns, or by using two or more in combination and panelled to suit individual needs or desires.
